Installation Steps

- 1.Extract project folder from zip file.
 - 2.Open folder in visual studio code.
 - 3.Open new terminal in visual studio code.
 - 4.Run command ``flutter upgrade``.
 - 5.Run command ``flutter pub get``.
 - 6.That's it, now you can run the project with ``flutter run``.
 - 7.If you want to run the project on android you can run ``flutter build apk`` command.
- 

THANK YOU
